Dear Allen,

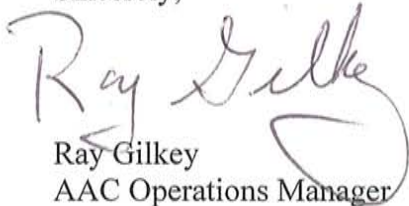

I would like to take this opportunity to express my gratitude for the many years of excellent customer service and support Schaffner Manufacturing has provided to Alcoa Aerospace Center.

Since the beginning of our operations in Hutchinson, you have worked not only as a supplier, but as a true partner in our polishing operations. Your early work on buff design and compound development has greatly impacted our success and improved the quality of the product supplied to our customers.

Year after year, your organization has continued to supply AAC with the highest quality polishing compound, buffs and expertise. It is a pleasure to be partnered with an organization like Schaffner Manufacturing, and AAC looks forward to many more years of continued partnership.

Thank you again for your continued support.

Sincerely,
