Spiral Sewn Bias Type sisal Buffing Wheel

This rugged construction is particularly suited, for removing orange peel, polishing grit lines, light die marks and other surface imperfections. This spiral sewn buff pad offers a firm to stiff buff that is aggressive with little to no flexibility making it suitable to remove deeper imperfection on flat or lightly contoured surfaces the sisal is bias cut on a 45° angle before assembly on engineered hub, which provides adequate forced ventilation. Pictured with Schaffners Trade Mark Red Devil Treatment for extra cut. Priced center-less. Add a 3", 5" or 7" metal insert with your choice of arbor hole for an additional \$.50 per section. Inserts can be used up to 4 times. 1-49 section list. 50-99 sections list - less 5%. 100 sections or more list - less 5% less 10%.
